FIND OUT IF YOU'RE GETTING *YOUR MONEY'S WORTH* FROM YOUR CURRENT MSP
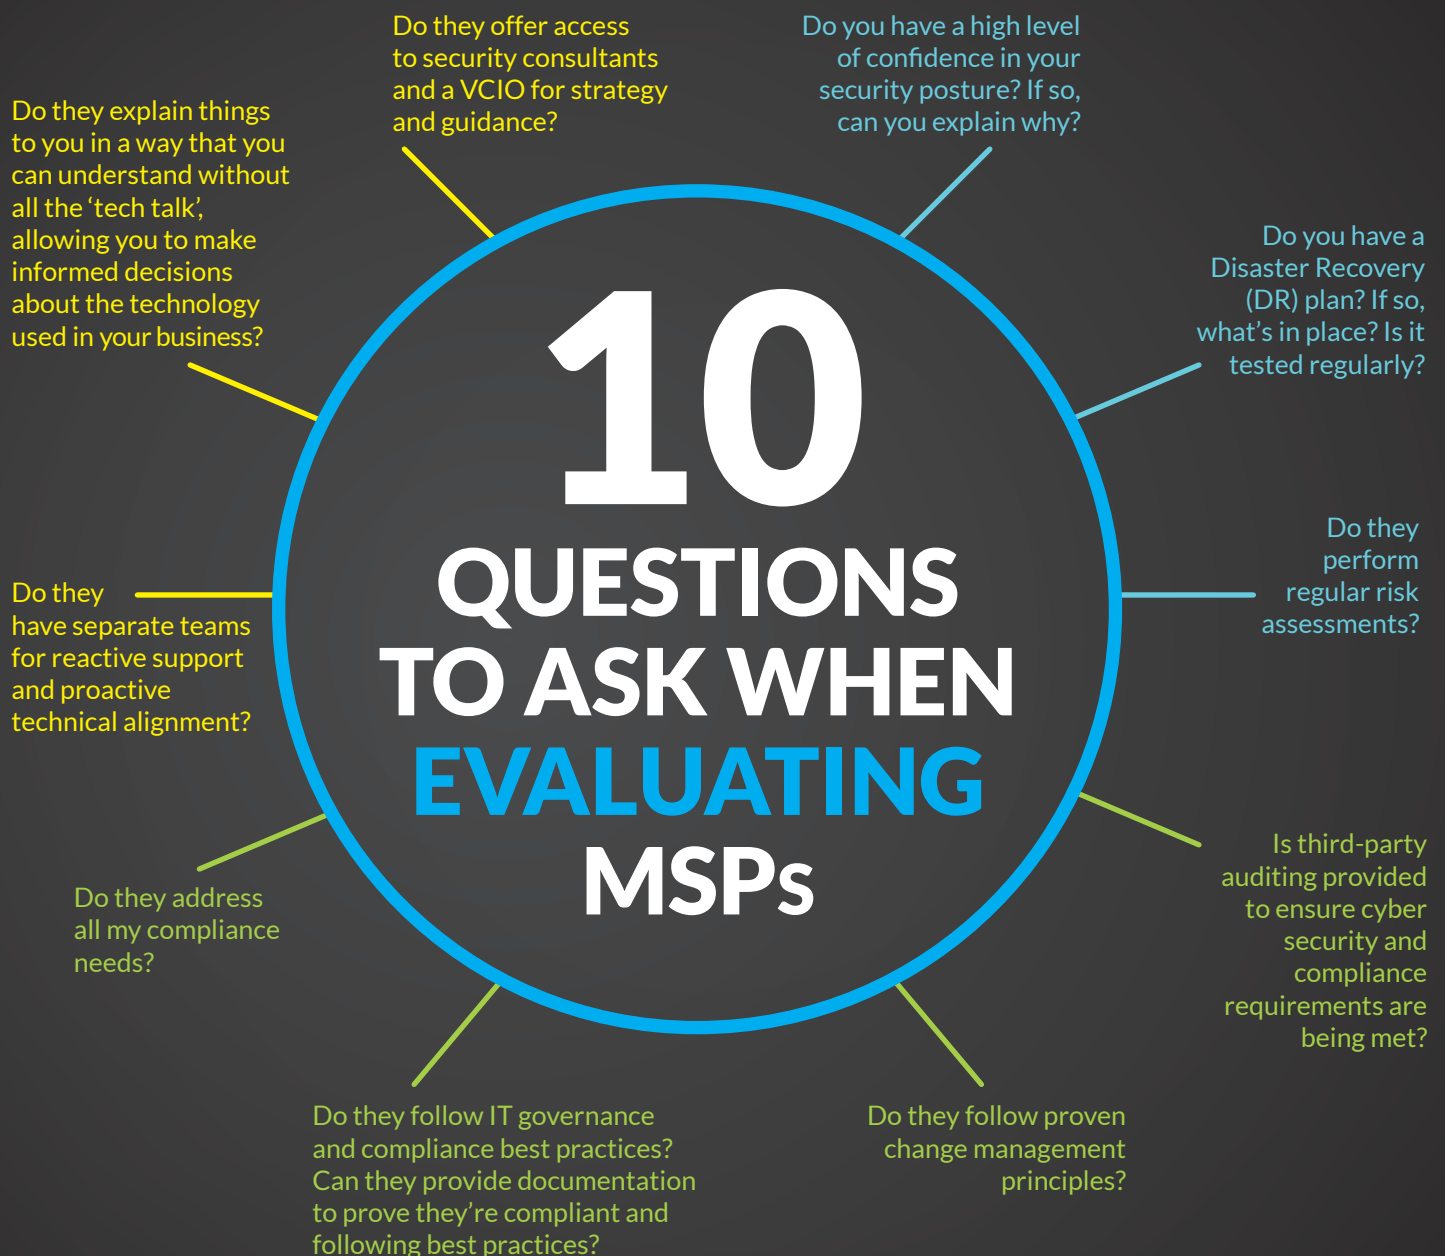

Review our 10 core organisational resilience questions below to see if anything vital to your organisation's success is missing.

■ PEOPLE ■ PROCESS ■ TECHNOLOGY

10 QUESTIONS TO ASK WHEN EVALUATING MSPs

Do they offer access to security consultants and a VCIO for strategy and guidance?

Do you have a high level of confidence in your security posture? If so, can you explain why?

Do they explain things to you in a way that you can understand without all the 'tech talk', allowing you to make informed decisions about the technology used in your business?

Do you have a Disaster Recovery (DR) plan? If so, what's in place? Is it tested regularly?

Do they perform regular risk assessments?

Do they have separate teams for reactive support and proactive technical alignment?

Is third-party auditing provided to ensure cyber security and compliance requirements are being met?

Do they address all my compliance needs?

Do they follow IT governance and compliance best practices? Can they provide documentation to prove they're compliant and following best practices?

Do they follow proven change management principles?

To learn how we help you achieve greater resilience across people, process, and technology.
